

AUTOMATIC LUBRICATION SYSTEM MINING DUMPERS

PRODUCTS RANGE

RIKKON GROUP OF COMPANIES

Why use LUBERR ALS on your equipment?

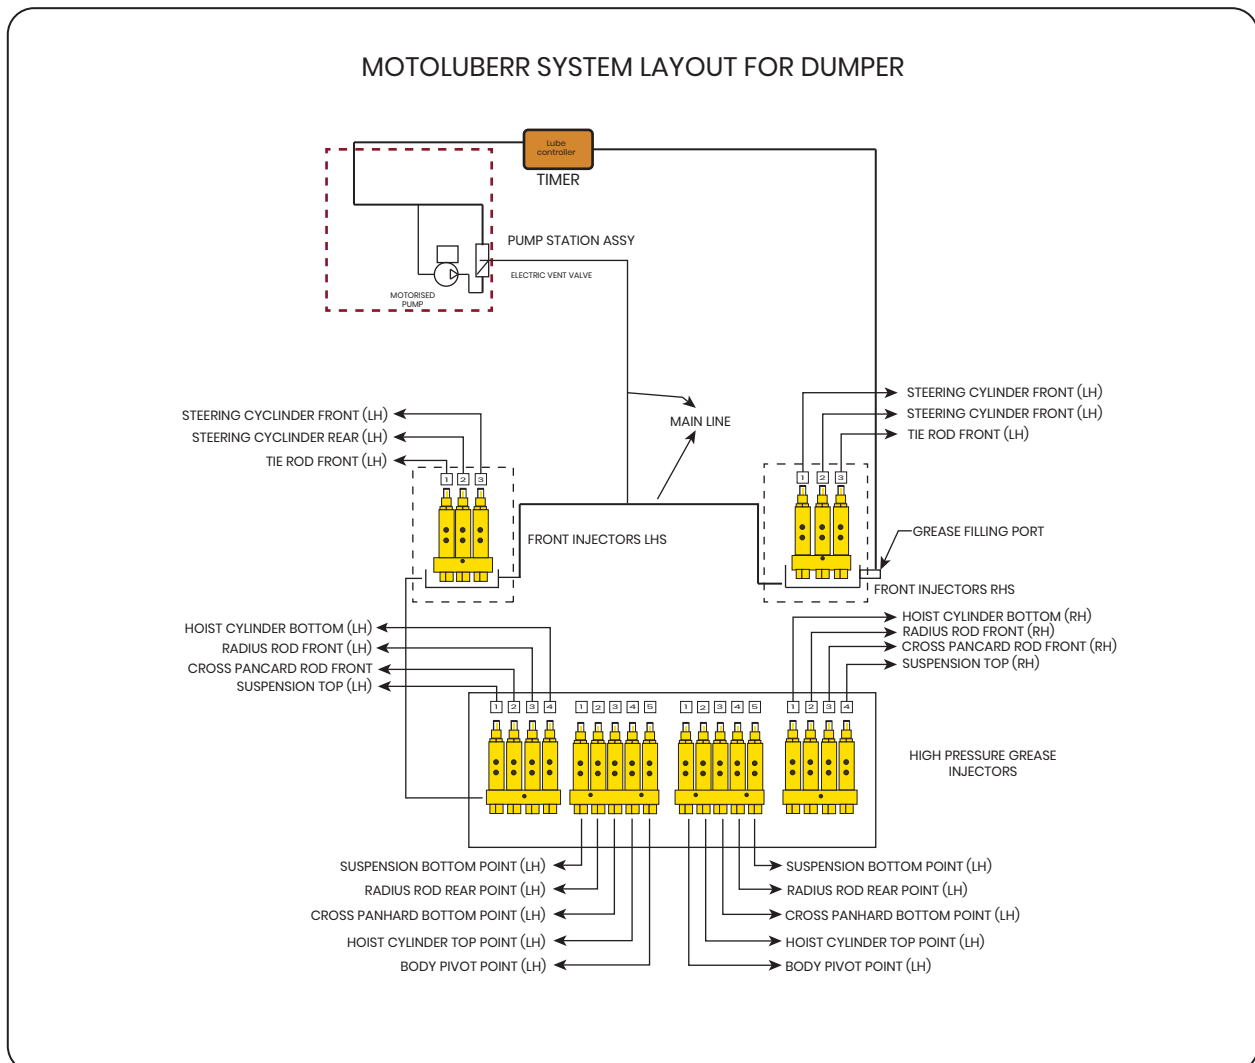

In today's market the machine is considered best when it is available for production. And greasing the machine manually is considered the major reason for machine halt and production loss

Customer not minding the periodic greasing and running the machine 100% without regular interval of greasing feel they have achieved the production but fail to understand that they stand to lose more on the bush failure and serving cost. Eventually bringing down the machine life as the worn out brushes without lubrication causes heavy stress on the machine body and construction. This cannot be controlled by the machine manufacturer knowing the customer problem.

The only solution to the above problem for both customer and the machine manufacturer is LUBERR- Automatic lubrication system.

- 🔥 Improves Equipment Availability by reducing
- 🔥 downtime
- 🔥 Increased Equipment bearing life due to periodic

LAYOUT OF INJECTOR SYSTEM IN DUMPER

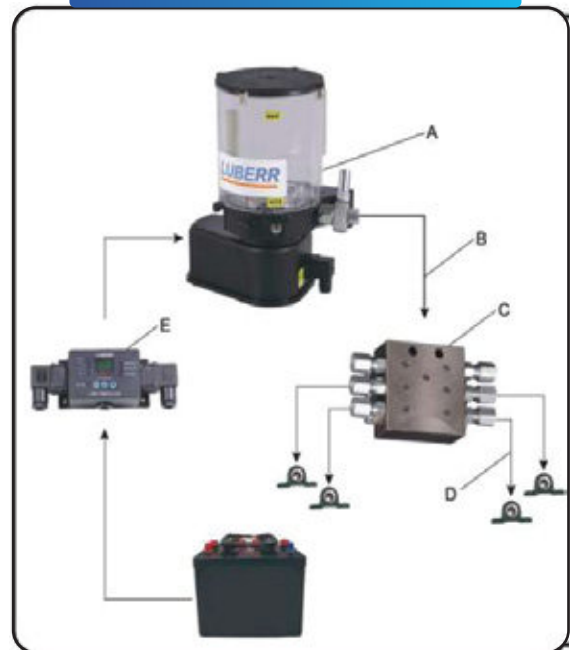

LUBERR , THE ULTIMATE LUBE MACHINE

Injector System

A - MOTOLUBERR Pump
B - Main lines
C - Grease Injectors
D - Secondary lines
E - LUBERR Timer

Distributor System

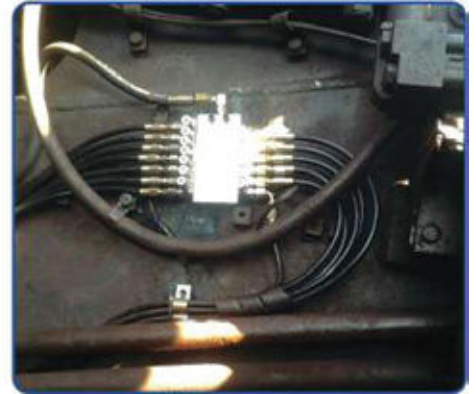

Installation of LUBERR ALS

Mono Block Progressive Distributor fitted at the bottom of the Dumper

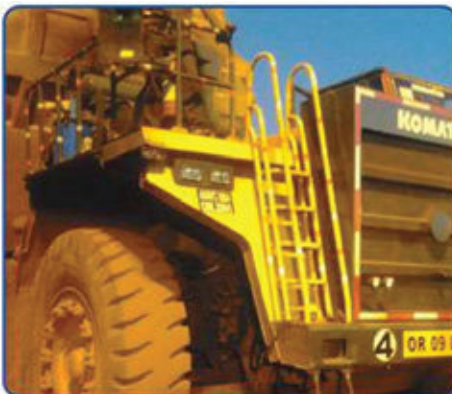

Grease Injector SVM 01 fitted on the Dumper

Mono Block Progressive Distributor Performance indicator Type fitted at the bottom of the Dumper to find the exact bearing blockage if any

MOTOLUBERR Timer fitted on the Dumper Dash Board for monitoring ALS

MOTOLUBERR SYSTEM fitted on the MINING DUMPER

MOTOLUBERR DC operated pump mounted on Top of the Dumper

ECONOMICAL 💧 RELIABLE 💧 EFFICIENT 💧 CONSISTENT

LUBERR – EXCELENCE THROUGH RELIABLE LUBRICATION

We design, manufacture, install and service centralized lubrication system across India. The company is based on its solid obligation to technical virtue and world class manufacturing facilities, delivers maintenance free products to its users.
