

SVM 35B INJECTORS

Luberr SVM35B Oil Injectors are positive displacement injectors. SVM 35B injectors gets filled when the system is pressurized, and inject the lubricant when the system pressure is relieved. This product is suitable for volumetric periodic lubrication systems with a working pressure of 1.75 - 2.5 Mpa.

These injectors deliver a fixed, predetermined quantity of lubricant to each lubricant point. The SVM 35 B model is available with single 2, 3, 4 and 5 outlets. Discharge of each outlet can be freely selected within a specified range. An unused outlet may be blocked with a special plug. This product is widely used in lubrication systems for printing, plastics, packing and machining tools etc.

Dimensional specification

Discharge size code	A	B	C	D	E	F	G
Product printing mark	03	06	10	20	30	40	50
Discharge (ml / cyc)	0.03	0.06	0.1	0.2	0.3	0.4	0.5
