

SVM 11

SINGLE LINE GREASE INJECTOR

GENERAL OPERATIONAL INFORMATION

The LUBERR Grease Injector Model SVM 11 can dispense large output quantity. And SVM 11 operates with lubricant up to Grease Grade NLGI-1. The SVM 11 Grease Injector has manual adjuster for optimizing the output quantity as per actual bearing requirements.

The LUBERR SVM 11 Grease Injectors can be installed individually or combined using a manifold with feed line supplying to the bearing point.

The SVM 11 Grease injectors can be used in the system along with SVM 33 , SVM 32 and SVM 01 Injectors.

- Easy Lubricant output manual adjuster
- Visual Indication pin is provided for inspecting Injector working.
- External greasing optional port provided for use in case of Injector failure.
- The optional port can also be used to fill feed lines during installations. Suitable for +93 Deg C max Temperature application.

TECHNICAL SPECIFICATIONS

| | | | |
|------------------------|------------------------|-------------------|------------------------|
| Lubricant Output Min | 0.82 cc (0.05 Cu. In.) | Inlet Connection | 1/2" NPTF |
| Lubricant Output Max | 8.19 cc (0.50 Cu. In.) | Outlet Connection | 1/8" NPTF or 1/4" NPTF |
| Min Operating Pressure | 90 Bars (1250 PSI) | Monitoring | Cycle indicator |
| Max Operating Pressure | 230 Bars (3500 PSI) | Lubricant | Max upto NLGI grade 2 |
| Vent Pressure | 55 Bars (800 PSI) | | |
