

## LUBERR CLS FOR ESCALATOR

**ENSURING EFFECTIVE MOVEMENT OF PEOPLE**

RIKKON GROUP OF COMPANIES

## ABOUT THE INDUSTRY

The expansion of globalization, is changing the way people travel, with increase in people movement, the infrastructure is to be improved and has to be efficient. Escalators and elevators are crucial to this which help people move quickly and easily through metro systems, airports shopping and office buildings. Reliability is crucial because faulty systems can lead to complete disorder, especially during rush hour. Since as many components are out of reach and downtime would be both expensive and disruptive, it is essential to keep maintenance to a minimum. Escalators chain systems are more energy-efficient in order to increase dependability and efficiency. We at Luberr ensure the equipment is properly lubricated and effectively maintained to reduce any downtime causing hardship.

### OCTOMINI PUMP

Model : Octomini  
 Vol : 24VAC  
 Capacity : 1.5 Litre  
 No of outlet : 9  
 Output: 0.02cc,0.05cc,0.08cc,0.1cc,0.15cc/stroke  
 RPM : 20  
 Applicator : Manifold with Brush  
 Operating Pressure : Max 100bar

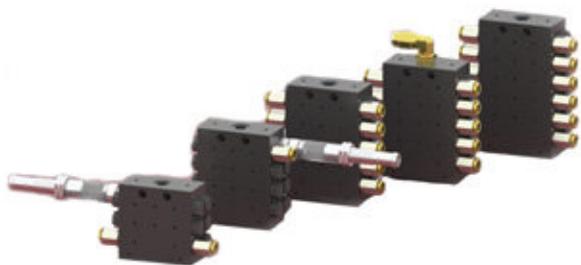

### PROGRESSIVE LUBRIACTION SYSTEM

Model : LBX  
 Voltage : 24 VDC  
 Capacity : 2 Ltrs  
 Output: 0.2 cc/Stroke  
 Max no of outlet : 3 nos  
 RPM : 20  
 Operating Pressure : Max 300 bar

### Distributor Specification

Progressive Distributor : 6 Outlet to 28 Outlet

Output : 0.2cc/stroke/cycle

Outlet Connection : 4mm or 6mm tube

Applicator : Manifold with Brush

### Single Line Lubrication system

Model : Machluberr

Reservoir Capacity : 3Litre

Voltage : 230VAC

Outlet : 1nos

Output : 250cc/minute

Outlet Connection: 6mm OD or 4mm OD Tube

Operating Pressure : Max 25bar

### Oil Applying Brush

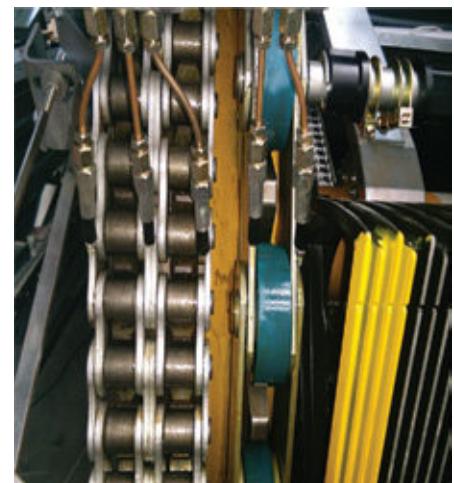

The brush is meant to apply even and proper lubrication over the chains, chain links and sprockets.

Avoid immediate oil dripping.

Application : 1. Escalators 2. Elevators
